Notes

All numbers below are inclusive of VAT

- For single rate credit meters, Tier 1 rate applies to the first 125 kWh per quarter (or 42 kWh per month for monthly billing customers) and all subsequent consumption is charged at Tier 2. For prepayment meters, the No Standing Charge prices apply to standard tariff customers on single rate Actaris meters with "KBD" on the front. Tier 1 rate applies to the first 500 kWh per annum and all subsequent consumption is charged at Tier 2. For all other single rate prepayment meter types, the Standing Charge prices apply - a daily charge applies and all consumption is charged at Tier 2 rates. If you don't have an Actaris KBD meter, we can install one. For new customers it may take up to 28 days after supply start date for the No Standing Charge prices to be updated to the prepayment meter.
- For two rate meters, the two rate prices apply. For two rate credit meters, Tier 1 day rate applies to the first 125 kWh per quarter (or 42 kWh per month for monthly billing customers) of day consumption and all subsequent consumption is charged at Tier 2. For prepayment meter types a daily charge applies and all consumption is charged at either Tier 2 or Night rates. Night means a period, or periods, determined by us (and as may be varied from time to time), totalling 7 hours (at present between 22:00 hours and 08:00 hours) and the night rate applies accordingly.
- A dual fuel discount is given where British Gas supplies both gas and electricity to the same property (and the accounts are in the same names). No dual fuel discount is available to customers with token or smartcard electricity meters. Only one dual fuel discount per property. Where electricity is supplied through a credit meter, a discount of 0.537 p/kWh off quarterly electricity Tier 2 rates (and night rates where applicable) up to a maximum of £3.75 per quarter (or £1.25 per month for monthly billing customers) appears on the electricity bill. Where electricity is supplied through an electricity key meter, British Gas must be supplying both gas and electricity to the property on 31 August in each year. The dual fuel discount is up to £15 per annum. A pro-rated amount will be calculated based on the number of consecutive days in an unbroken period in the calendar year up to and including 31 August that British Gas supplied both gas and electricity to the property. This amount will be credited to the electricity meter within the three months following 31 August.
- Electricity customers paying by Direct Debit will receive a discount off their Tier 2 consumption charges (and night rates where applicable) of 1.429 p/kWh up to a maximum of £10 per quarter (or £3.33 per month for monthly billing customers).
- Electricity customers paying either quarterly by Cash or Cheque, monthly by Debit or Credit Card, or by Quarterly Equal Payments whose payment is received within 14 days of the bill issue date will receive a discount off their next bill's consumption charges of 3.9% up to a maximum of £3.75 per bill.
- Electricity customers paying by Standing Order will receive a discount off their next quarter's bill of 9% up to a maximum of £10 per bill.
- For customers paying by magnetic payment card, an additional charge of 2.000 p/kWh will be applied to Tier 1 prices up to a maximum of £2.50 per quarter.
