Our guaranteed standards of performance

We know that you rely on us to provide essential services to your home and we understand the inconvenience that problems with your gas and electricity supply can cause. The paragraphs below explain the service we will provide.

Appointments.

If we need to visit your home to carry out work on your gas or electricity supply, we'll offer you the choice of a morning or afternoon appointment which we will make every effort to uphold. If circumstances beyond our control arise, we will also make every effort to contact you, in advance, if the appointment cannot go ahead. If we don't do this, or if we don't visit without giving you notice, we'll give you £20 compensation.

Meter problems.

If you think your gas or electricity meter is faulty, please let us know immediately. We'll try to explain the problem by telephone or in writing within 5 working days. If we need to visit your home to inspect the

meter, we'll offer to visit you within 7 working days. If we can't do this, we'll give you £20 compensation.

Pay as you go meters.

If you report a fault with your gas or electricity Pay as you go meter, an engineer will attend within three hours (electricity) or four hours (gas) on working days or within four hours for either meter on any other day. If we don't, we'll give you £20 compensation.

Compensation payments.

Should we fail to live up to these guaranteed standards, or if our service adversely affects you in any way, you may be entitled to a compensation payment. Different compensation rules apply depending on when the job in question was completed, but if you are entitled to compensation, we'll make sure you have the payment within ten working days. If you don't, we'll give you an additional £20. Please note, you will not be entitled to compensation if you are responsible for the delay in resolving the fault.
